Patient Instructions

- EEG (electroencephalograph) = *non-invasive recording of the electrical activity in your brain (brain waves)*
Preparation: Ensure your hair is clean and dry, with no styling products added (eg. no hairspray, gel, or mousse, etc)
Test duration: Approximately 1 hour

- Nerve conduction studies/EMG (electromyography) = *a test to assess the functions of your muscles and nerves*
Preparation: No preparation required
Test duration: Approximately 1 hour

- Evoked responses = *non-invasive recording of your brain activity in response to sight, sound, or touch*
Preparation: No preparation required
Test duration: Approximately 1 hour

If you are unable to attend your appointment – please phone 03 8345 6570 to cancel or rebook.
