

Western Health invites GPs and Practice Nurses to attend this case based education session which will cover common breast cancer issues faced in general practice.

A range of specialists from the Western Health Breast Cancer team will be involved in the case-based discussions.

Facilitator: Ms Meron Pitcher, Breast and General Surgeon.

Topics to be covered:

- When to worry – interpreting results
- When not to worry
- Managing late effects of cancer treatment in general practice including menopause and lymphedema
- The role of exercise after a cancer diagnosis

Learning objectives

At the completion of the session participants will be able to:

- ❖ Identify patients who require referral to a breast surgeon
- ❖ Confidently interpret a breast radiology report & recognise common radiological changes
- ❖ Reassure a patient with a benign breast lump
- ❖ Manage late effects of cancer treatment
- ❖ Describe the role of exercise after a cancer diagnosis
