

### PROSTATE CANCER SURVIVORSHIP CARE PLAN (SCP)

After your treatment is completed, it is important to have follow-up visits to monitor side effects of treatment, provide practical and emotional support, as well as to check if your cancer has come back. Information in this Care Plan will help your GP and specialists manage your follow-up care together. Please take this Care Plan with you when you visit your GP, specialist or another member of your treatment team. Ask them to record the outcomes of follow-up tests and any actions to be taken. If you are unsure with any information in this document, please discuss it with your GP/Specialist.

## PROSTATE CANCER SURVIVORSHIP CARE PLAN (SCP)

#### Patients – When to contact your doctor

Contact your GP or specialist if you notice **ANY** new, unusual, or persistent symptoms that concern you. You don't have to wait for your follow-up appointment.

Contact your GP or Specialist if you notice:

- Significant change in urinary function (such as changes in passing urine or not being able to pass urine or feeling your bladder doesn't empty properly, bleeding)
- Rectal bleeding/pain
- persistent lowered energy levels
- unexplained weight loss
- unexplained persistent bone pain or discomfort

### **Further Information**

- The Australian Cancer Survivorship Centre aims to improve health outcomes for cancer survivors, and provides timely and relevant information on important issues related to cancer survivorship. www.petermac.org/services/support-services/australian-cancer-survivorship-centre
- Cancer Council Victoria provides information and support for cancer survivors. The helpline runs a free telephone based support service called Cancer Connect, where you can speak with another cancer survivor: Telephone 13 11 20
