

 Victorian Healthcare Experience Survey

Sunbury Day Centre

September 2016

# About the Victorian Healthcare Experience Survey

The Victorian Healthcare Experience Survey (VHES) is a statewide survey of people's public healthcare experiences. The Ipsos Social Research Institute - an independent contractor - conducts the survey on behalf of the Victorian Department of Health and Human Services using questionnaires based on the internationally recognised work of the Picker Institute.

The VHES allows a wide range of people to provide feedback on their experiences and provides specialised questionnaires for:

- adult and child inpatients, including parents/guardians
- adult and child emergency department attendees, including parents/guardians.
- maternity consumers
- adult and child specialist clinic consumers

These questionnaires are distributed to a randomly selected group of eligible people from each health service in the month following the hospital discharge or the emergency department attendance.

For further information about the VHES please contact: [vhes@dhhs.vic.gov.au](mailto:vhes@dhhs.vic.gov.au)

## About this report

This report provides results for your campus or health service for all patient categories for which a sufficient sample size (n=42) was achieved in the period July - Sept 2016.

This PDF was generated on 05 02 2017.

Answers to frequently asked questions and further information about the project's methodology are available in the appendix of this report.

The diagram below describes how to interpret each chart

# Table of Contents

- Overall Experience
- Adult Inpatient
- Paediatric Specialist Clinics
- Adult Specialist Clinics
- Methodology
- Help

# Sunbury Day Centre

Sunbury Day Centre is a member of Western Health health service (WES) and is within the Other Metro peer group (OTH).

The Other Metro peer group consists of the following campuses

- Angliss Hospital
- Sandringham Hospital
- Healesville & District Hospital
- Yarra Ranges Health
- Werribee Mercy Hospital
- Broadmeadows Health Service
- Craigieburn Health Service
- Rosebud Hospital
- Moorabbin Hospital
- Casey Hospital
- Cranbourne Integrated Care Service
- Williamstown Hospital
- Sunbury Day Centre

## Response rates

### Adult Inpatient

191 questionnaires sent, 72 received. Response rate - 38%

### Paediatric Specialist Clinics

Response rate unavailable.

### Adult Specialist Clinics

Response rate unavailable.

## Campus Wide Experience - Sept 2016

In July - Sept 2016, 97.78% of patients from Sunbury Day Centre rated their overall hospital experience as either 'very good' or 'good'.

# Adult Inpatient - July 2016 - September 2016

## Overall Experience and Key Aspects of Care

The VHES Adult inpatient questionnaire seeks to discover the experience of people, 16 and over, who have been admitted to one of 116 Victorian public hospitals. Potential respondents are randomly selected from people who were discharged from the health service in the preceding month.

This section features the overall experience question, and the three key aspects of care that were most likely to differentiate a positive overall experience from a negative overall experience for the adult inpatient category.

Key aspects of care questions are identified with a ★

Overall experience questions are identified with a 🌱

Analysis shows that if a campus providing adult inpatient services improves the care and treatment provided by nurses, teamwork between doctors and nurses and the discharge process, patients' overall experience is likely to improve.

🌱 76. Overall, how would you rate the care you received while in hospital? [View data](#)

Answers

VG - Very good G - Good A - Adequate P - Poor VP - Very poor

★ 29. Overall, how would you rate the care and treatment you received from your nurses? [View data](#)

Answers

VG - Very good G - Good NG - Neither good nor poor P - Poor VP - Very poor

★ 41. How would you rate how well the doctors and nurses worked together? [View data](#)

Answers

★ 74. Overall, how would you rate the discharge process? [View data](#)

Answers

VG - Very good G - Good NG - Neither good nor poor P - Poor VP - Very poor

# Adult Inpatient - July 2016 - September 2016

## Core Common Questions

These are a nationally-endorsed set of hospital-level survey questions and are used for adult inpatients in surveys throughout Australia. In the survey they are marked with a 🌱 symbol.

🌱 13. How clean were the toilets and bathrooms that you used in hospital? [View data](#)

Answers

VC - Very clean FC - Fairly clean NV - Not very clean NA - Not at all clean NA - Not applicable

🌱 33. How often did the doctors, nurses and other healthcare professionals caring for you explain things in a way you could understand? [View data](#)

Answers

AO - All of the time MO - Most of the time SO - Some of the time R - Rarely N - Never

🌱 37. Were you involved as much as you wanted to be in decisions about your care and treatment? [View data](#)

Answers

YD - Yes, definitely YT - Yes, to some extent N - No NA - Not applicable

🌱 39. How much information about your condition or treatment was given to your family, carer or someone close to you? [View data](#)

Answers

NE - Not enough TR - The right amount TM - Too much NA - Not applicable TD - They did not want this ID - I didn't want this

🌱 40. Did your family or someone close to you have enough opportunity to talk to the staff? [View data](#)

Answers

YD - Yes, definitely YT - Yes, to some extent N - No ID - I didn't want this TD - They didn't want this

★ 41. How would you rate how well the doctors and nurses worked together? [View data](#)

Answers

E - Excellent VG - Very good G - Good F - Fair P - Poor

★ 42. If you needed assistance, were you able to get a member of staff to help you within a reasonable time? [View data](#)

[View data](#)

Answers

AO - All of the time MO - Most of the time SO - Some of the time R - Rarely N - Never NA - Not applicable

★ 43. If you had any worries or fears about your condition or treatment, did a health professional discuss them with you? [View data](#)

Answers

YD - Yes, definitely YT - Yes, to some extent N - No ID - I didn't raise them ID - I didn't have any

★ 47. Do you think the hospital staff did everything they could to help manage your pain? [View data](#)

Answers

YD - Yes, definitely YT - Yes, to some extent N - No NA - Not applicable

★ 69. Before you left hospital, did the doctors and nurses give you sufficient information about managing your health and care at home? [View data](#)

Answers

YC - Yes, completely YS - Yes, somewhat RI - Received insufficient info DR - Didn't receive info

★ 71. Thinking about when you left hospital, were adequate arrangements made by the hospital for any services you needed? (e.g. transport, meals, mobility aids) [View data](#)

Answers

YC - Yes, completely YT - Yes, to some extent N - No ID - I didn't need this

🌱🌍 76. Overall, how would you rate the care you received while in hospital? [View data](#)

Answers

**VG** - Very good **G** - Good **A** - Adequate **P** - Poor **VP** - Very poor

🌱🌍 78. Overall, did you feel you were treated with respect and dignity while you were in hospital? [View data](#)

Answers

**YA** - Yes, always **YS** - Yes, sometimes **N** - No

## Spotlight

### Transitions index adult inpatient

The transitions index has been developed with the aim of improving processes relating to discharge planning. It incorporates the average of the positive scores for four adult inpatient questions relating to discharge. The index provides an overview of how hospitals, health services, peer groups and the state are performing in the discharge process.

The transitions index is shown below followed by the four questions that contribute to the index.

n represents the average n across questions within the Spotlight. [View data »](#)

#### 69. Before you left hospital, did the doctors and nurses give you sufficient information about managing your health and care at home? [View data](#)

#### Answers

**YC** - Yes, completely **YS** - Yes, somewhat **RI** - Received insufficient info **DR** - Didn't receive info

#### 70. Did hospital staff take your family or home situation into account when planning your discharge? [View data](#)

#### Answers

**YC** - Yes, completely **YT** - Yes, to some extent **N** - No **NA** - Not applicable

#### 71. Thinking about when you left hospital, were adequate arrangements made by the hospital for any services you needed? (e.g. transport, meals, mobility aids) [View data](#)

#### Answers

**YC** - Yes, completely **YT** - Yes, to some extent **N** - No **ID** - I didn't need this

#### 72. If follow up with your General Practitioner (GP) was required, was he or she given all the necessary information about the treatment or advice that you received while in hospital? [View data](#)

#### Answers

**Y** - Yes **N** - No **NI** - No info was needed **FU** - Follow up wasn't required

# Adult Inpatient - July 2016 - September 2016

## Admission To Hospital

Patients were asked whether their hospital stay was planned in advance or an emergency.

1. Was this hospital stay planned in advance or an emergency?

Answers

**PI** - Planned in advance **E** - Emergency **SE** - Something else

---

# Adult Inpatient - July 2016 - September 2016

## The Emergency Department

In this section, patients who arrived at hospital via the Emergency Department were asked to rate the politeness and courtesy of staff and the care and treatment they received from the doctors and nurses in the ED.

2. How would you rate the politeness and courtesy of staff in the ED? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor **DK** - Don't know

3. Do you think the amount of time you spent in the ED was...? [View data](#)

Answers

**AR** - About right **ST** - Slightly too long **MT** - Much too long

4. Overall, how would you rate the care and treatment you received from your doctors in the ED? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor

5. Overall, how would you rate the care and treatment you received from your nurses in the ED? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor

# Adult Inpatient - July 2016 - September 2016

## Waiting List Or Planned Admission

Those whose hospital stay was planned in advance were asked how they felt about the length of time they were on the waiting list before their admission to hospital and whether they received sufficient information about their hospital stay before their arrival.

6. How do you feel about the length of time you were on the waiting list before your admission to hospital? [View data](#)

Answers

**A** - Appropriate **AB** - A bit too long **MT** - Much too long

7. Before your arrival, did you receive sufficient information about your hospital stay? [View data](#)

Answers

**YC** - Yes, completely **YS** - Yes, somewhat **RI** - Received insufficient info **DR** - Didn't receive info

# Adult Inpatient - July 2016 - September 2016

## All Types Of Admission

8. Do you think the time you had to wait from arrival at hospital until you were taken to your room or ward was...? [View data](#)

Answers

**AR** - About right **ST** - Slightly too long **MT** - Much too long

9. How would you rate the politeness and courtesy of admissions staff? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor

# Adult Inpatient - July 2016 - September 2016

## The Hospital & Ward

This section explored the physical environment of the hospital and ward. Patients were asked about the cleanliness of their ward and the toilets and whether hand-wash gels were available for patients and visitors. They were also asked if they shared a room with a patient of the opposite sex.

10. During your hospital stay, did you share a room with a patient of the opposite sex?

Answers

**Y&** - Yes & this was a concern **Y&** - Yes & this was not a concern **N** - No

11. During your hospital stay, were you ever bothered by any of the following? (Please select all that apply) [View data](#)

Answers

**OP** - Other patients' noise **HS** - Hospital staff noise **VN** - Visitors' noise **EN** - Equipment noise **ON** - Other noise **L** - Lighting **NO** - None of the above

12. In your opinion, how clean was the hospital room or ward that you were in? [View data](#)

Answers

**VC** - Very clean **FC** - Fairly clean **NV** - Not very clean **NA** - Not at all clean

13. How clean were the toilets and bathrooms that you used in hospital? [View data](#)

Answers

**VC** - Very clean **FC** - Fairly clean **NV** - Not very clean **NA** - Not at all clean **NA** - Not applicable

14. Were hand-wash gels available for patients and visitors to use? [View data](#)

Answers

**Y** - Yes **TW** - They were empty **ID** - I did not see any **DK** - Don't know

15. Did you feel friends and family were welcome to visit you? [View data](#)

Answers

**YA** - Yes, always **YS** - Yes, sometimes **N** - No **NA** - Not applicable

# Adult Inpatient - July 2016 - September 2016

## Food

In this section, patients were asked whether the hospital food was suitable for their dietary needs and whether they received enough help from staff to eat their meals. Patients were also asked to rate the hospital food.

16. How would you rate the hospital food? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor **NA** - Not applicable

17. Was the hospital food suitable for your dietary needs (for example medical, cultural, or religious needs or personal preference)? [View data](#)

Answers

**YA** - Yes, always **YS** - Yes, sometimes **NN** - No, never **NA** - Not applicable

18. Did you get enough help from staff to eat your meals? [View data](#)

Answers

**YA** - Yes, always **YS** - Yes, sometimes **N** - No **NA** - Not applicable

# Adult Inpatient - July 2016 - September 2016

## Your Doctors

This section covers the care provided specifically by doctors. It includes whether the patient felt that the doctors treating them knew enough about their medical history and whether they had confidence and trust in these doctors. Patients were also asked about the doctors' compassion, and to rate the care they received from doctors overall.

19. During your hospital stay, did the doctors who treated you know enough about your medical history? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No

20. Did you have confidence and trust in the doctors treating you? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No

21. If you needed to talk to a doctor, did you get the opportunity to do so? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No NA - Not applicable

22. Were the doctors treating you compassionate? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No

23. Overall, how would you rate the care and treatment you received from your doctors? [View data](#)

Answers

VG - Very good G - Good NG - Neither good nor poor P - Poor VP - Very poor

# Adult Inpatient - July 2016 - September 2016

## Your Nurses

This section covers the care provided specifically by nurses. It included questions about nurses' knowledge of patients' condition and treatment and patients' feelings of confidence and trust in nurses. Patients were also asked whether the nurses treated them compassionately and to rate the treatment they received from the nurses.

24. During your hospital stay, did the nurses who treated you know enough about your condition and treatment? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No

25. Did you have confidence and trust in the nurses treating you? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No

26. In your opinion, were there enough nurses on duty to care for you in hospital? [View data](#)

Answers

AO - Always or nearly always SO - Some of the time RO - Rarely or never

27. If you needed to talk to a nurse, did you get the opportunity to do so? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No NA - Not applicable

28. Were the nurses treating you compassionate? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No

★ 29. Overall, how would you rate the care and treatment you received from your nurses? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor

# Adult Inpatient - July 2016 - September 2016

## Other Healthcare Professionals

In this section, patients were asked about the quality of care and treatment they received from health professionals other than doctors and nurses.

30. Which, if any, of the following other healthcare professionals did you receive care or treatment from during this hospital stay? (Please select all that apply)

Answers

**D** - Dietician **OT** - Occupational Therapist **P** - Pharmacist **P** - Physiotherapist **P** - Psychologist **R** - Radiographer **SW** - Social worker  
**SP** - Speech Pathologist **O** - Other **N** - None

31. Overall, how would you rate the care and treatment you received from these other healthcare professionals? [View data](#)

Answers

**VG** - Very good **G** - Good **NG** - Neither good nor poor **P** - Poor **VP** - Very poor

# Adult Inpatient - July 2016 - September 2016

## Your Care

This section covers care provided by all health professionals to patients during their hospital stay. Patients were asked whether the staff treating and examining them introduced themselves and their role and how often doctors, nurses and other healthcare professionals explained things in a way the patient could understand. Questions also covered the behaviour of the hospital staff, including whether they talked about the patient as if they weren't there and whether they cleaned their hands or put on gloves before examining the patient. Patients were also asked how much information was given to them and their relatives about their condition and treatment and whether they received emotional support and assistance from hospital staff during their stay.

32. Did the staff treating and examining you introduce themselves and their role? [View data](#)

Answers

YA - Yes, all staff SS - Some staff VF - Very few / none

33. How often did the doctors, nurses and other healthcare professionals caring for you explain things in a way you could understand? [View data](#)

Answers

AO - All of the time MO - Most of the time SO - Some of the time R - Rarely N - Never

34. While you were in hospital, did hospital staff talk about you as if you weren't there? [View data](#)

Answers

YO - Yes, often YS - Yes, sometimes N - No

35. Did you see hospital staff wash their hands, use hand gel to clean their hands, or put on clean gloves before examining you? [View data](#)

Answers

YA - Yes, always YS - Yes, sometimes N - No DK - Don't know

36. Sometimes in a hospital, a member of staff will say one thing about your care and another will say something quite different. Did this happen to you? [View data](#)

Answers

YO - Yes, often YS - Yes, sometimes N - No

37. Were you involved as much as you wanted to be in decisions about your care and treatment? [View data](#)

Answers

YD - Yes, definitely YT - Yes, to some extent N - No NA - Not applicable

38. How much information about your condition and treatment was given to you? [View data](#)

Answers

NE - Not enough TR - The right amount TM - Too much N - None

39. How much information about your condition or treatment was given to your family, carer or someone close to you? [View data](#)

Answers

NE - Not enough TR - The right amount TM - Too much NA - Not applicable TD - They did not want this ID - I didn't want this

40. Did your family or someone close to you have enough opportunity to talk to the staff? [View data](#)

Answers

YD - Yes, definitely YT - Yes, to some extent N - No ID - I didn't want this TD - They didn't want this

41. How would you rate how well the doctors and nurses worked together? [View data](#)

Answers

E - Excellent VG - Very good G - Good F - Fair P - Poor

42. If you needed assistance, were you able to get a member of staff to help you within a reasonable time? [View data](#)

Answers

AO - All of the time MO - Most of the time SO - Some of the time R - Rarely N - Never NA - Not applicable

# Adult Inpatient - July 2016 - September 2016

## Leaving Hospital

This section covers the discharge process. Patients were asked about how they felt about the length of their hospital stay, whether they were given enough notice about when they were going to be discharged and about any delays they faced. In addition, questions also covered whether the patient was given enough information about managing their health and care at home and whether their family/home situation was taken into account when planning their discharge. Patients were also asked to rate the discharge process.

62. Looking back, do you feel that the length of your hospital stay was... [View data](#)

Answers

**TS** - Too short **AR** - About right **TL** - Too long

63. Were you given enough notice about when you were going to be discharged? [View data](#)

Answers

**YD** - Yes, definitely **YT** - Yes, to some extent **N** - No

64. Did you feel you were involved in decisions about your discharge from hospital? [View data](#)

Answers

**YD** - Yes, definitely **YT** - Yes, to some extent **N** - No **ID** - I didn't want this

65. On the day you left hospital, was your discharge delayed for any reason? [View data](#)

Answers

**Y** - Yes **N** - No

66. How long was the delay?

Answers

**LT** - Less than 1 hour **1-** - 1 - 2 hours **2-** - 2 - 4 hours **4H** - 4 hours or longer

67. Did a member of staff explain the reason for the delay? [View data](#)

Answers

Y - Yes N - No

68. What was the reason or reasons for the delay? (Please select all that apply)

Answers

WF - Wait for medicines WT - Wait to see the doctor WF - Wait for transport WF - Wait for GP letter SO - Some other reason

69. Before you left hospital, did the doctors and nurses give you sufficient information about managing your health and care at home? [View data](#)

Answers

YC - Yes, completely YS - Yes, somewhat RI - Received insufficient info DR - Didn't receive info

70. Did hospital staff take your family or home situation into account when planning your discharge? [View data](#)

Answers

YC - Yes, completely YT - Yes, to some extent N - No NA - Not applicable

71. Thinking about when you left hospital, were adequate arrangements made by the hospital for any services you needed? (e.g. transport, meals, mobility aids) [View data](#)

Answers

YC - Yes, completely YT - Yes, to some extent N - No ID - I didn't need this

72. If follow up with your General Practitioner (GP) was required, was he or she given all the necessary information about the treatment or advice that you received while in hospital? [View data](#)

Answers

Y - Yes N - No NI - No info was needed FU - Follow up wasn't required

73. Did you receive copies of communications sent between hospital doctors and your GP? [View data](#)

Answers

**YI** - Yes, I received copies **NI** - No, I did not receive copies **TW** - There were none **DK** - Don't know

# Paediatric Specialist Clinics - July - Sept 2016

## Overall Experience and Key Aspects of Care

The VHES Paediatric Specialist questionnaire seeks to discover the experience of children under 16 and their parents or carers at a specialist clinic. Potential respondents are randomly selected from people who had an appointment at a Specialist Clinic in the preceding month.

This section features the overall experience question, and the three key aspects of care that were most likely to differentiate a positive overall experience from a negative overall experience for the paediatric specialist category.

69. Overall, how would you rate the care you received at the clinic? [View data](#)

Insufficient data for this period

Answers

VG - Very good G - Good A - Adequate P - Poor VP - Very Poor

10. Approximately, how long after the stated appointment time did the appointment start? [View data](#)

Insufficient data for this period

Answers

SO - Seen on time, or early WU - Waited up to 15 minutes W1 - Waited 16 - 30 minutes W3 - Waited 30 minutes to 1 hour

W1 - Waited 1 - 2 hours WM - Waited more than 2 hours DK - Don't know / Can't remember

23. Did you have confidence and trust in the doctor examining and treating you? [View data](#)

Insufficient data for this period

Answers

YD - Yes, definitely YT - Yes, to some extent N - No

32. Did you have confidence and trust in this health professional? [View data](#)

# Paediatric Specialist Clinics - July - Sept 2016

## Your Care And Treatment

This section covered the care and treatment the patient received at their specialist clinic appointment. Patients were asked whether the staff treating and examining them introduced themselves and their role, whether the doctor or health professionals ever talked about the them as if they weren't there, if enough information about their condition and treatment was given and if they were involved as much as they wanted to be in decisions about the treatment and care plan.

Patients were also asked if enough privacy was given when discussing the condition or treatment and when being examined or treated, whether staff had clean hands before examining the patient and whether different staff said different things about the care being received.

Those whose appointment was about a long term condition and/or symptoms they need ongoing care or treatment for were asked whether a healthcare professional asked them what was important in managing the condition/symptoms, whether the appointment helped the patient feel that they could better manage their condition/symptoms and whether permission was sought if any students accompanied any health professions during the treatment and examination. Patients who reported that they needed help in understanding English were asked if there was someone in the clinic that could interpret for them and whether information was given in their language.

34. Did the staff treating and examining you introduce themselves and their role? [View data](#)

⚠ Insufficient data for this period

Answers

**YA** - Yes, all of the staff introduced themselves **SO** - Some of the staff introduced themselves

**VF** - Very few or none of the staff introduced themselves **TW** - This was not needed

35. While you were in the specialist clinic, did the doctor or other health professionals you saw talk about you as if you weren't there? [View data](#)

⚠ Insufficient data for this period

Answers

**Y** - Yes **N** - No

36. While you were in the clinic how much information about your condition or treatment was given to you? [View data](#)

⚠ Insufficient data for this period

Answers

**NE** - Not enough **RA** - Right amount **TM** - Too much **IW** - I was not given any information about my treatment or condition

37. Were you involved as much as you wanted to be in decisions about your treatment or care plan? [View data](#)

⚠ Insufficient data for this period

Answers

**YD** - Yes, definitely **YT** - Yes, to some extent **NB** - No, but I would have liked this **NB** - No, but I did not want / need this

38. Were you given enough privacy when discussing your condition or treatment? [View data](#)

## Overall Experience and Key Aspects of Care

The VHES Adult Specialist questionnaire seeks to discover the experience of people, 16 and over, who have had an experience at a specialist clinic. Potential respondents are randomly selected from people who had an appointment at a Specialist Clinic in the preceding month.

This section features the overall experience question, and the three key aspects of care that were most likely to differentiate a positive overall experience from a negative overall experience for the adult specialist category.

69. Overall, how would you rate the care you received at the clinic? [View data](#)

Insufficient data for this period

Answers

VG - Very good G - Good A - Adequate P - Poor VP - Very Poor

11. Did you experience any inconvenience or problems as a result of the wait? [View data](#)

# Adult Specialist Clinics - July - Sept 2016

## Your Care And Treatment

This section covered the care and treatment the patient received at their specialist clinic appointment. Patients were asked whether the staff treating and examining them introduced themselves and their role, whether the doctor or health professionals ever talked about the them as if they weren't there, if enough information about their condition and treatment was given and if they were involved as much as they wanted to be in decisions about the treatment and care plan.

Patients were also asked if enough privacy was given when discussing the condition or treatment and when being examined or treated, whether staff had clean hands before examining the patient and whether different staff said different things about the care being received.

Those whose appointment was about a long term condition and/or symptoms they need ongoing care or treatment for were asked whether a healthcare professional asked them what was important in managing the condition/symptoms, whether the appointment helped the patient feel that they could better manage their condition/symptoms and whether permission was sought if any students accompanied any health professions during the treatment and examination. Patients who reported that they needed help in understanding English were asked if there was someone in the clinic that could interpret for them and whether information was given in their language.

### 34. Did the staff treating and examining you introduce themselves and their role? [View data](#)

Answers

**Y** - Yes **NB** - No, but I would have liked this **NB** - No, but I did not want / need this information

# Adult Specialist Clinics - July - Sept 2016

## Overall

This section covers patient's overall feelings about their experience including whether they felt that the clinic they visited was organised, whether they felt they were treated with respect and dignity, how they would rate the care they received and whether they felt that the specialist clinic appointment was beneficial to their health and/or wellbeing.

67. How well organised was the clinic you visited? [View data](#)

⚠ Insufficient data for this period

Answers

**VO** - Very organised **FO** - Fairly organised **NV** - Not very organised **NA** - Not at all organised

68. Did you feel you were treated with respect and dignity while you were at the clinic? [View data](#)

⚠ Insufficient data for this period

Answers

**YC** - Yes, completely **YT** - Yes, to some extent **N** - No

69. Overall, how would you rate the care you received at the clinic? [View data](#)

⚠ Insufficient data for this period

Answers

**VG** - Very good **G** - Good **A** - Adequate **P** - Poor **VP** - Very Poor

70. Did you think this specialist clinic appointment was beneficial to your health and / or wellbeing? [View data](#)

⚠ Insufficient data for this period

Answers

**YC** - Yes, completely **YS** - Yes, somewhat **N** - No

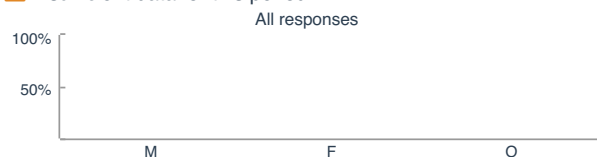

# Adult Specialist Clinics - July - Sept 2016

## About The Patient

This section covers general demographic questions about the patient. These included gender, year of birth, main language spoken, highest level of education completed and Aboriginal/Torres Strait Islander status. Patients were also asked a number of questions about their health, including any long-standing conditions they have and how they would rate their health.

75. What is your gender?

⚠ Insufficient data for this period

Answers

**M** - Male **F** - Female **O** - Other

76. Average age of patient

0

77. Which language do you mainly speak at home?

⚠ Insufficient data for this period

English 0% Other

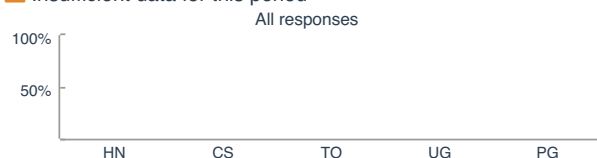

0%

Answers

**E** - English **AL** - A language other than English

78. What is the highest level of education you have completed?

⚠ Insufficient data for this period

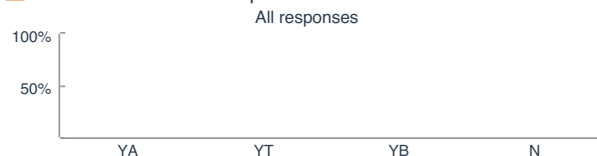

Answers

**HN** - Have not completed secondary school **CS** - Completed secondary school **TO** - Trade or technical certificate or diploma  
**UG** - University graduate **PG** - Post graduate / higher degree

79. Are you of Aboriginal origin, Torres Strait Islander origin, or both?

⚠ Insufficient data for this period

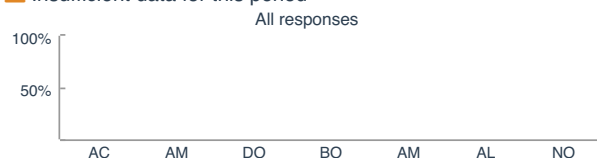

Answers

**YA** - Yes, Aboriginal **YT** - Yes, Torres Strait Islander **YB** - Yes both Aboriginal and Torres Strait Islander **N** - No

80. Which, if any, of the following long-standing conditions do you have?

⚠ Insufficient data for this period

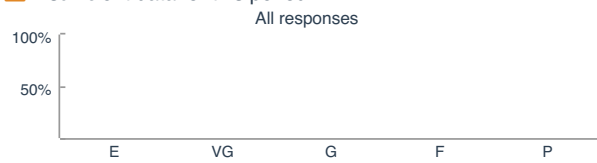

Answers

**AC** - A chronic illness, such as cancer, diabetes, asthma, or epilepsy **AM** - A mobility impairment **DO** - Deafness or severe hearing impairment  
**BO** - Blindness or severe vision impairment **AM** - A mental health condition (including dementia or Alzheimer's)  
**AL** - A learning disability or developmental delay **NO** - None of these

81. In general, how would you rate your health?

⚠ Insufficient data for this period

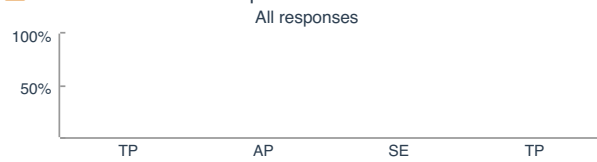

Answers

**E** - Excellent **VG** - Very good **G** - Good **F** - Fair **P** - Poor

---

82. Who completed this questionnaire?

⚠ Insufficient data for this period

Answers

**TP** - The patient **AP** - A parent / guardian on behalf of the patient who is a child. **SE** - Someone else on behalf of the patient

**TP** - The patient with help from someone else

---

# Methodology

The Victorian Healthcare Experience Survey utilises a combination of a mail-out and online method, and is sent monthly to a sample of eligible patients who had a hospital or emergency department experience in the previous month.

Until November 2014, the survey was provided only in English. From December 2014, surveys were made available in 15 languages other than English for the Adult Inpatient and Adult Emergency categories, and in six languages for Paediatric and Maternity categories.

## Sampling and data collection

The sample for each campus to be surveyed is provided to Ipsos monthly. Campuses are required to provide limited details (name, patient category, preferred language, date of birth, postal address and where possible, email address) for a defined number of randomly selected patients each month via a secure portal. These details are kept for six months to ensure that patients are not surveyed too frequently and then securely destroyed to preserve anonymity.

Patients for whom an email address is provided are then emailed a link to the online version of the questionnaire. If they do not complete the survey online within two business days, they are then posted a hard copy version of the questionnaire. Those patients for whom an email address is not provided are also posted a hard copy survey at this point. Patients who receive a survey in a language other than English will only have the option to complete this survey in hard copy.

Those who receive a mail-out survey are also given details to complete the survey online if they prefer, or to complete the hard copy version and return by reply paid envelope. All mail-out surveys are data entered, and the data is merged with online results. At this point, the unique patient identification is checked to ensure no patients have attempted to complete online and hard copy versions of the survey.

## Weighting and significance testing

To ensure that data accurately represents the population of interest (the true population of patients at each campus), 'normalising factors' are applied to the data. Normalising factors are calculated based on the difference between the proportion of a certain type of respondent in the sample and the proportion of that type of respondent attending the health service. In essence, applying normalising factors to a dataset readjusts the achieved sample to resemble the population, removing any skew in the results. The calculation of proportional factors to normalise survey data is a standard research process.

A proportional weighting scheme is applied to the sample at each campus to bring it into line with each campus's true population. This is based on the average annual separation data for each campus in 2013. In addition, in presenting the campus wide data, each patient category is normalised according to what percentage of the campus's true population it represents.

While weighting is applied to make a sample more accurate, any data manipulation can introduce error. Ipsos accounts for this by using an effective error margin – a process that estimates the degree of error introduced into a sample by a weighting scheme and accounts for it in all statistical tests applied.

## Reporting

Results for the survey are reported on a quarterly basis, three months following the completion of each quarter. Quarters are:

- **January to March stays** (referred to as 'M' in charts throughout the portal) – results made available at the beginning of the following June.
- **April to June stays** (referred to as 'J' in charts throughout the portal) – results made available at the beginning of the following September
- **July to September stays** (referred to as 'S' in charts throughout the portal) – results made available at the beginning of the following December
- **October to December stays** (referred to as 'D' in charts throughout the portal) – results made available at the beginning of the following March.

Results for each campus are published only if the campus achieves at least 42 survey returns to ensure the data is statistically robust. However, these campuses will still contribute to the peer group, health service and state average. Where a campus does not achieve 42 survey returns, the portal will state that there is insufficient data for this period.

However, campuses with only small numbers of completed questionnaires will have the opportunity to receive a rolling sample as the survey progresses. This means that results for multiple quarters will be merged to provide a sufficient sample size over a longer period.

Note that a sample size of 42 affords a maximum margin of error of +/- 15% at the 95% level of confidence. This means that if 70% of patients at campus with 42 survey completes rate their overall experience as 'very good' or 'good', we can be 95% confident that between 55% and 85% of all patients actually feel this way. As the sample size increases, the margin of error decreases. For example, if 70% of a sample of 150 patients rate their experience as 'very good' or 'good', we can be 95% confident that between 78% and 62% actually feel this way, as the maximum margin of error is +/- 8%.

## Analysis

In all reporting, statistically relevant significant findings have been reported at the 95% confidence interval and are represented within tables in green where the subject (campus, health service or state) has performed significantly higher than the comparator or in orange where it has performed significantly lower.

In addition, a key driver analysis was run to determine the 'Key Aspects of Care' for each patient category. These Key Aspects of Care are the defining hospital experiences: those that are most likely to separate a patient who rated their overall experience as 'very good' or 'good', from those who rate it as 'poor' or 'very poor'.

## Response rates

In the July - Sept 2016 period, the following statewide response rates were achieved for each patient category:

- **Adult Inpatient:** 7090 individuals, or 33% of those invited completed the survey
- **Adult Emergency:** 2503 individuals, or 20% of those invited completed the survey
- **Paediatric Inpatient:** 1275 individuals, or 20% of those invited completed the survey
- **Paediatric Emergency:** 1548 individuals, or 17% of those invited completed the survey
- **Maternity:** 1301 individuals, or 30% of those invited completed the survey
- **Paediatric Specialist Clinics:** No surveying was conducted during the July - Sept 2016 period
- **Adult Specialist Clinics:** No surveying was conducted during the July - Sept 2016 period

# Help

Answers to frequently asked questions are presented below. If these do not respond to your query, please contact us at results@vhes.com.au

## Frequently asked questions

### Q: How do I interpret each question chart?

A: The images below provide detailed information on how to interpret and navigate charts and data.

### Q: How frequently are results provided?

A: Results for the survey are reported on a quarterly basis, three months following the completion of each quarter. Quarters are:

- January to March stays (referred to as 'M' in charts throughout the portal) – results made available at the beginning of the following June
- April to June stays (referred to as 'J' in charts throughout the portal) – results made available at the beginning of the following September
- July to September stays (referred to as 'S' in charts throughout the portal) – results made available at the beginning of the following December
- October to December stays (referred to as 'D' in charts throughout the portal) – results made available at the beginning of the following March.

### Q: Why can't I see results for certain patient categories for my campus?

A: Results for each campus are provided only if the campus achieves at least 42 survey returns to ensure the data is statistically robust (please see the Method section in Appendix 2 for more information on this). Where a campus does not achieve 42 survey returns, the portal will state that there is insufficient data for this period. Many health services experienced initial difficulties with data extraction and uploading. Most services have resolved these difficulties with and should expect results for all categories for the July- September results.

However, campuses with only small numbers of completed questionnaires will have the opportunity to receive a rolling sample as the survey progresses. This means that results for multiple quarters will be merged to provide a sufficient sample size over a longer period.

### Q: What does the alert symbol ⚠ mean?

A: An alert symbol is shown where the sample size for a particular question is less than 30. This means that the margin of error for this question is quite large (more than +/- 18%), so results should be interpreted with caution.

### Q: How can I see the patient comments?

A: Patient comments are analysed and presented at an aggregate level under the 'other comments' tab for each patient category. These comments are also provided, verbatim, to campuses.

The Victorian Healthcare Experience Survey operates under the Information Privacy Act 2000 (Vic) (IPA). The IPA requires Victorian State and local government agencies to collect and handle personal information in accordance with ten enforceable privacy principles.
